Annual Meeting of Rate-Payers

Interest in Affairs of School District Manifested
By Absence of Trustees and Ratepayers

The annual meeting of the ratepayers was held on Monday night in the council chamber, when the reports of the councillors and school trustees were presented. The meeting was attended.

Owing to the absence of the chairman and other members of the school trustee board, the report from that body was not presented, and on the recommendation of two citizens, it was decided to call for another meeting to be held on Monday, January the 10th, at which time the report for the year from the trustees and teachers will be submitted to the ratepayers.

The chairman of the Finance Committee, W. Evans, referred at some length to the auditor's report, as published in these columns a few weeks ago, by which it is noted that the town has a current indebtedness of \$17,497.60. This amount has since been reduced by \$2,000.00, showing as "cash in bank." All outstanding accounts have since been paid. The town's note to the Union Bank is now \$4,000.00 instead of \$7,000, leaving practically no cash on hand. Between January 1st and January 9th, 1916, the sum of \$4,157.70 was necessary to meet debentures then due, and it may be found necessary to again appeal to the bank for increase of credit. The town is behind a considerable portion of its appropriation to the school district, and as a consequence the school trustees have been unable to meet their obligations to the teachers in full for the month of October. From the auditor's report it will be seen that if all taxes were in, the town's financial condition would be flourishing.

The expenditures for the year have been kept to a minimum. Mr. Evans was asked to explain how the sum of \$2,024.78 a crude interest was made up, which he did in an able manner. In conclusion, Councillor Evans urged that all ratepayers who possibly could would pay up their taxes, or at least a portion of them, otherwise the Finance Committee could not do otherwise than inform the School Board that they are unable to meet their obligations, thus necessitating the closing of that institution.

The chairman of the Health and Relief Committee reported that owing to the fact that the Provincial Government had provided the sum of \$300 last spring for relief work, very little money was spent by the town during the year in charity. The relief money from the Government was entrusted to the Relief Committee and used to the very best possible advantage. As a result employment was given to those most in need, and when most necessary, and many families were provided during the most distressing period. The spending of the money was spread over a period of about five months. As a result of this appropriation from the Government, Victoria Street was properly graded; and some much needed repairs were effected to other streets and bridges within the town. At times while the road work was in progress it was found difficult to secure teams, and it became necessary to employ a team and man from Mr. Sinclair for a few

days. The cheque issued to Mr. Sinclair for such services was endorsed back to the Relief Committee, together with promise of a man and team for three days without charge. Such services were availed of at a later period. During the year two cases demanded the attention of the Committee—one being the old man Preston, who had to enter hospital for a short period, and the other the case of the late Peter Tracy, both of whom became dependent upon the town, costing in the neighborhood of \$116.00.

The chairman of the Works and Property Committee reported that only the necessary work had been done by his department. Roads have been kept in good repair and all approaches to bridges had been graded. Sidewalks in several places had been replaced, and a fence had been erected around the fire-hall lots, at a cost of \$65.00.

The chairman of the Fire and Light Committee reported that the sum of \$111.00 had been spent by his department during the year. A volunteer brigade has been formed, and practices will be held regularly. The fire underwriters' agent recently paid Blairmore a visit. His report calls for some very drastic improvements from this department, some of which will have to be attended to.

The License and Police Department found it necessary to employ a policeman, whose duties, in addition to the police work, consist of looking after the waterworks, cemetery, sanitation and fire. A new police cell has been purchased, at a cost of \$140.00. The sum of \$35.65 for police expenses include the usual 10 per cent allowed for license collections. The amount collected for licenses is \$30 less than last year, which is accounted for by the fact that no circus or other attractions have visited the town as in previous years. Dog taxes collected this year exceed the sum collected in 1914 by \$53.00. Several parties were brought before the court for refusal to pay dog taxes, and in all cases the offenders have paid up. The sum of \$22.00 was collected during the year in fines.

The sum of \$1340.41 was spent during the year by the Waterworks Department. It was found necessary to purchase five new hydrants and a new gate valve. Two of the hydrants have been installed, the remainder being in stock temporarily. The new gate valve has been installed between the Alberta hotel and the central telephone office, which will permit the water to be turned off in certain districts instead of shutting off the water from the whole town as formerly. During last winter and spring considerable difficulty was experienced with frozen water connections, necessitating the expenditure of \$305.52, shown as "pipe line repairs." The sum of \$481.75 for wages is one-half of the secretary's salary. To endeavor to eliminate the expense of repairing pipe lines during the coming winter, a circular has been sent out to all water consumers and it is felt that if contents of that circular are lived up to, the expense caused by having to dig up and

thaw out pipes will be greatly reduced. From now henceforth there will be no monthly accounts rendered from the office, and it behoves all concerned to see that their accounts for water are paid promptly on the 15th of each month.

Following a brief speech by Mayor Sinclair, in which he complimented the council upon the harmony which has attended their duties and administrations throughout the year, the meeting adjourned. One noticeable fact should be mentioned at this time. At the two preceding annual meetings of the ratepayers, a hall could not be secured with sufficient capacity to accommodate the number of ratepayers who attended, and it was evident that if contents of that circular are lived up to, the expense caused by having to dig up and

such turnouts. This year a 2x4 would have held the vast audience.

Salvation Army
Major J. W. Hay, of Edmonton, divisional officer for Alberta, who has had over thirty years of Salvation Army experience, will conduct a meeting in the Union Church on Wednesday evening next at 7.45. His address will be one of great profit to those who attend, and a hearty invitation is extended to all.

The I.O.O.F. dance held last night was an unusual success. About seventy couples were in attendance. Music was furnished by the new Coleman orchestra, and luncheon was handled by the ladies of the Red Cross. Half of the net proceeds, amounting to \$12.25, was handed over to the Red Cross Society.

Seed Grain Fairs

Seventy-five Exhibitions to be Held at Various Points in Saskatchewan

Several seed and grain fairs will be held at various points in Saskatchewan before Christmas, according to the present plans of the directors of agriculture extending the province. These include the department of agriculture, the University of Saskatchewan, and the Saskatchewan Grain Growers—beside many agricultural societies.

Although no dates have been set as yet, the following places have been selected: Prince Albert, Fort Macleod, Woodstock, Elbow, Wainwright, Rouleau, Pelly, Pleasant, Richard, Gull Lake, Lethbridge, Lacombe, Lethbridge, Lloydminster, Kerrobert, Scottsguard, Lashburn, Expans and Alameda.

Officers of the Saskatchewan Grain Growers say there is ample scope for the extension of these fairs owing to the fact that there are about 1,000 local grain dealers in the province.

The officers of the bank-farmers movement is the committee on agriculture and education of the bankers' state associations. Where aggressive committees have been formed, there is great progress in being made.

While individual bankers are working at close range with the man on the soil, that locality is certain to show the greatest results.

If these committees, if these individual bankers, will all do their best work, could get together to exchange experiences—discuss the best plan for future work—it would be a great success.

A conference of the bankers' state association committees and all others interested in the movement is planned.

Such a conference, in itself, was no new thing. Several have been held, with excellent results. But the present one is to be a success, because it is short on the cut-and-dried, routine program. It was long on inspiration, right to special consideration after the right to real thought—balled down for busy work.

While seed grain fairs were first held in the province nine-tenths of the exhibits were ruled out on account of the presence of weed seeds. Of late years, however, a greater interest has been shown in the presence of weeds in the grain, although exhibitors have been far more careful of late to exclude them, but the very greatest care.

At the fairs this year, which have now been held for several years, there has been a great difference in the exhibits. It has not been great enough, however, to offset the enormous excess now to the farmers of the province.

There is one important phase of the question on which has been agreed by all the members of the university. Speaking of immigration farmers into Saskatchewan and the part played by them in agricultural production, there were some real farmers, too. It was a marching of all the people who had a general responsibility to the great cause.

From the interchange of ideas by the banker-farmers and the educational and others present, a helpful definition of the lines on which the bankers are to work is future.

Local and state agricultural cultural activity were inspired to renew their organizations to greater efficiency. The bankers' state associations are to do their best to help the individual bankers, their recommendations on the best methods of cooperation with the farmer were of great value to every banker in the United States.

The agricultural commission prepared an interesting program. It included a series of lectures given by the state committees on agriculture from the banker-farmers individually, from educators, others and others. It started off every one interested. It extended to every one.

This is a striking indication of the fact that what is being taken in agricultural matters by our neighbors across the line, and we might come some of this enthusiasm.

The Freedom of the Seas

The phrase "the freedom of the seas" has been widely used by German and pro-German propagandists in their efforts to discredit the allied cause. They claim that their object is to make that England with her "Marianism" is tyrant of the seas. Such efforts can only be for the simple reason that their object is to destroy. They could succeed only if other nations felt our "tyranny." Our fleet is not to us a means of "tyranny," it is a means of ruling the land. Both are, and are being used, as instruments of the war. Save for the exploits of the German submarines, most of which are murder, not war, we meet the world's ships.

When the Germans demand "freedom of the seas" they mean the kind of freedom with which their submarines fitfully, and with varying degrees of success, have been able to bring us to a standstill.

What improvement will the world see? That the average cow is capable of producing 200 pounds of butter in a year when fed and cared for properly.

How much do your cows produce? Over 100 pounds of pure—cow—pure dairy cattle are capable of producing 200 pounds of butter in a year when fed and cared for properly.

What improvement will the world see? That the average cow produces 100 pounds of butter in a year when fed and cared for properly.

That the price of butter is the same as that of bacon? That the creameries of the state during the past few years has been 20 cents per pound.

What was the average price paid by your creamery?

That the price, a co-operative farmer's price, depends upon what is done first, the amount of business done by the creamery and, second, the quality of butter made.

What improvement will the world see? That the average cow produces 100 pounds of butter in a year when fed and cared for properly.

That the world is witness of the fighting qualities of the British race, and we need not trouble to defend our grain companies from the imputation of cowardice. But in the long war of endurance on which we are now embarked, the industrial world is not to be beaten, nor, I think, now as it was a hundred years ago, and we should do far more harm than good to the allied cause if we destroyed our grain companies, and thereby withdrawing too many men from industry in order to put them into the fighting force.—Westminster Gazette.

Work as Well as Fight

Napoleon flung his jibe at us as a nation of shopkeepers, feeling that we were a bunch of cowards. We did not understand then that we were being beaten by our imperturbable habit of going about our business while he was driving us to the wall.

The whole world is witness of the fighting qualities of the British race, and we need not trouble to defend our grain companies from the imputation of cowardice. But in the long war of endurance on which we are now embarked, the industrial world is not to be beaten, nor, I think, now as it was a hundred years ago, and we should do far more harm than good to the allied cause if we destroyed our grain companies, and thereby withdrawing too many men from industry in order to put them into the fighting force.—Westminster Gazette.

Glasgow has begun to provide its policemen with warm food and tea when on night duty by installing a series of heated canteens, placed in signal boxes at a number of points easily reached.

"Hang it, Jones, I've just been stung by one of your confounded bees!" demand reparation.

Certainly, Wilson. You just show me which bee it was and I'll punish the horrid thing severely."

Banker-Farmer Movement

Bankers Hold Conference on Agricultural Questions at Chicago

The American banker is here and soul in the banker-farmer movement, and his organization has participated in the campaign that is to bring a better and more profitable agriculture and better opportunities for the farmer. He has his part in this work in the past, but he wants to do more. He wants to know how to do it.

He wants to know how the banker-farmer movement is the committee on agriculture and education of the bankers' state associations. Where aggressive committees have been formed, there is great progress in being made.

Officers of the bankers' state associations say there is ample scope for the extension of these fairs, owing to the fact that there are about 1,000 local grain dealers in the province.

According to the statement of the Hon. W. R. Motherwell, minister of agriculture, to the effect that this year a loss of \$25,000,000 would be suffered by the grain-growing districts of Saskatchewan, the farmers' demands will be given to the farmers, the start of eradication work from the present to the future, the need of planting only good seed, the need to plant clean seeds to root the wheat stem rusting up the spring.

While seed grain fairs were first held in the province nine-tenths of the exhibits were ruled out on account of the presence of weed seeds. Of late years, however, a greater interest has been shown in the presence of weeds in the grain, although exhibitors have been far more careful of late to exclude them, but the very greatest care.

The best friends of agriculture in the United States joined with the bankers' state associations.

Such a conference, in itself, was no new thing. Several have been held, with excellent results. But the present one is to be a success, because it is short on the cut-and-dried, routine program. It was long on inspiration, right to special consideration after the right to real thought—balled down for busy work.

ALBERTA

Here is an advertisement that
appeared in the classified columns
of a country weekly recently: "For
Sale—Good cow giving milk, also
hay." It has been remarked that
possibly, if treated kindly, this
remarkably productive cow might
also be induced to lay eggs.

OF LOCAL AND GENERAL INTEREST

Mrs S. Bonner is visiting friends
at South Fork.

I. H. Putnam, solicitor, Lum
Bago had him this week.

Work at the Frank mine was
suspended for a couple of days this
week.

Sir Wilfrid Laurier celebrated
his 74th birthday on November
20th.

A. J. McCool, of the Summit
Hotel, Grows Nest, was in town on
Tuesday.

Mr. and Mrs. E. Disney, of Cole-
man, attended the I.O.O.F. dance
last night.

As a result of the I.O.O.F. dance
held last night, about \$21 will go
to the Red Cross Society.

C. P. Hill, of Montreal, a direc-
tor of the Hillcrest Collieries Co.,
is in The Pass this week.

LOST—Between Bellevue and
Blairmore, a Gray Muff. Finder
please leave at West Canadian
office.

LOST—A small black purse con-
taining a \$5.00 bill and some small
change. Finder will please return
to The Enterprise.

Nomination for councillors and
school trustees will take place on
Monday next, December 6th, from
11 o'clock to noon.

A local issuer of marriage licen-
ses reports business improving,
and was in a position this week to
purchase a ticket for the I.O.O.F.
dance.

The members of L.O.O. No. 2420
will hold their annual ball at Cow-
ley on Friday, December 17th, notices
of which are already posted.

FOR RENT—Six-roomed dwell-
ing house, with bath room and hot
and cold water fitting. House
nicely located. Apply to The
Enterprise.

A grand dance will be given in
the Union Hall at Hillcrest on the
night of Monday, December 13th,
for the benefit of the Canadian
Patriotic Fund.

A cooking range presented by
the Blairmore Hardware Co. to the
Red Cross Society, is being raffled.
There is a chance for you to try
your luck with two-bits.

Miss L. Murdoch has tendered
her resignation to the local school
board, to take effect at the end of
the year. We understand that
Miss Murdoch has accepted a position
with one of the schools at
Lethbridge.

A. C. Beach, of the Customs,
Frank and Blairmore, has received
word from his son in Montreal that
he has joined the colors. He holds
a good position in the Canadian
Bank of Commerce, being manager
of a branch in Montreal. He is now
lieutenant in the composite
regiment, and is in charge of the
Lethbridge. His title is Lieutenant,
T. Bathurst Beach. Mr. Beach's
youngest son, now in Vancouver,
has been rejected twice after vol-
unteering on account of rheuma-

A. sacred song service will be
held in the Institutional church at
Coleman on Sunday afternoon next
at 3 o'clock. The song service will
be rendered by the choir and is
entitled "Florence Nightingale."

The choir has rendered similar
sacred song services on previous
occasions and the public is assured
that this event will be as good as
any yet given and a musical treat
well worth hearing. A collection
will be taken in aid of church
funds.

PLANS FOR FARM BUILDINGS WITH BILLS OF MATERIAL AND IN- STRUCTIONS HOW TO BUILD

1. General Purpose Barns.
2. Dairy Barns.
3. Beef Cattle Barns.
4. Horse Barns.
5. Sheep Barns.

6. Piggeries & Smoke Houses.
7. Poultry Houses.
8. Implement Sheds and Granaries.
9. Silos and Root Cellars.
10. Farmhouses.

No expense or trouble has been spared in making these booklets of real value to the farmer. The building plans, the up-to-date information concerning the handling of cattle, horses, sheep, pigs and poultry, and other farm subjects contained in the booklets, have been prepared by the College of Agriculture of the University of Saskatchewan, and are specially designed for prairie conditions. Information concerning the proper wood to use and the means of figuring cost of material before building are supplied by the Forest Service of British Columbia. The object of these bulletins is to help farmers to use material grown and manufactured in Canada. By showing the prairie farmer how to use our Western lumber in building, it is hoped that the cost of building will be easier and cheaper. Good service and satisfaction to the customer will insure the market for British Columbia lumber. It is in our great timber industry that the prosperity of British Columbia mainly depends. It is sound business for everyone to hold up the West by buying home products.

Any of the above bulletins in which you are interested will be mailed free upon application to the Chief Forester, Victoria, R. C. Complete reference sets will also be supplied to lumber dealers on request.

BRITISH COLUMBIA HAS A WOOD FOR EVERY USE

The Pass Honor Roll

Local Men Wearing King's Uniform

In preparing the roll of honor for The Pass, we have endeavored to give a full list of the boys who have answered the call of "Your King and Country Need You, Enlist Today." We hope anyone whose name is not on the list and who is entitled to a position on it, will come forward and give us their name and rank and help to swell The Pass Roll of Honor.

The Secret of Prohibition ! REVEALED !

? WHERE ?
FOR CASH AT

Michel Rossi's Liquor Store

Next To The Cosmopolitan Hotel, Blairmore

When the Grocer or Dry Goods Man has a Sale, he is always able to replenish his stock, and no legislation can put him out of business; but the vote of last July has put us in the uninevitable position of clearing out our stock, and once it is gone there will be no re-stocking. We have no spoiled goods on hand. All our goods are renowned brands, and in filling your order for Xmas, it is asked that you closely consider the prices below and also use our misfortune, and fill up your stock for the

FESTIVE SEASON

From December 8th to December 31st

We are having a Sale, and the prices you are asked to pay for your Wines and Liquors during that time will reveal the true cause for Prohibition -- namely High Prices.

300 imported British fabrics to choose from. Worsted, Serge, Tweeds, Chintz, Viscose, Homespun—20 new designs in men's styles.

\$15 up to \$35, \$41. Exclusive importations in the higher-priced garments.

W. E. Cooper, Blairmore

Blairmore Red Cross

We regret to have to complain of the lack of attendance at the weekly sewing meetings. The need for hospital supplies has never decreased and so long as there is a demand there will be a need of workers. The room in the hall is warm, comfortable and well lighted. Surely we can give one afternoon a week to this splendid cause. There is small chance of any cessation of fighting for the Christmas season—therefore we have no excuse for neglecting the work entailed by this thing.

Workers are not limited to membership—any and all—members or non-members will be cordially welcomed.

The above which has been donated by Mr. Dunn is to be disposed of by raffle. Tickets are now on sale at 25¢ each. All tickets are numbered and the lucky number (to be drawn when all tickets are sold) will take the range. Tickets can be had from Mrs. Flinckey, Mrs. Howe, The Drug Store, Mrs. Wright or Mrs. Carter.

Frank has now an organized society of its own. We wish to extend our thanks to the workers who have until the present time contributed to our society. The following supplies have been made available by these workers: 9 surgical sets, 24 pillow cases, 21 straight bandages, 4 pair socks, 12 abdominal binders, 29 personal property bags.

Try a bottle of our draft Port, the only thing cheap about it is the price;

you will find a glass will relieve that tired feeling.

Recruiting For

Tunnelling Co.

• Recruiting for No. 2 Tunnelling Company (Engineers) Canadian Expeditionary Force will be started immediately with Calgary as the mobilization point.

Miner and mine workers will largely comprise this specialized unit, as a knowledge of tunnelling in all grounds, mining, timbering and the handling and laying of high explosive charges will be essential in this desire to join. Various mining centres, therefore, of Western Canada will be visited and asked to contribute their quota.

Major R. W. Coulthard, who himself is a mining engineer of 15 years standing in Western Canada, and former General Manager of the West Canadian Collieries at Blairmore and Bell Buckle, will organize and command the Company, which is a departure from previous military establishments in Canada, and has been organized to meet certain exigencies and requirements which have developed at the front.

It is expected that this force will leave for overseas very soon after organization has been completed.

Further particulars concerning the recruiting itinerary, Calgary recruiting station address and establishment generally will be announced in a few days.

Applications for enlistment may be made to Major R. W. Coulthard at P.O. Box No. 2317, Calgary, Alta.

Norwegians are great fishermen, but to England belongs the credit of having captured the largest fish—a Hun submarine.

was rendered by Miss Allan and Mr. Haysom.

Branch of Patriotic Fund at Coleman

by R. E. Campbell, member for Rocky Mountain.

A big patriotic meeting was held in the Coleman opera house on Sunday evening last, and was largely attended.

The principal speaker of the evening was Dr. Kirby, principal of Mount Royal College, Calgary, who was accompanied

readily being accomplished by certain towns and mining camps throughout this constituency, and urged upon Coleman the necessity of doing her share towards looking after the dependents of soldiers at the front.

It was necessary for Coleman to raise in the neighborhood of \$350 per month, which he thought could easily be realized.

Other speakers included the mayor, A. Morrison, Councillor Robert Holmes, and W. L. Ouimette.

Dr. Kirby's address was one of the most forcible and practical yet delivered on this subject in The Pan.

A local branch was formed with the following officers:

Hon. President—R. E. Campbell, M.

P.P.

President—O. E. S. Whiteside.

Vice-President—A. M. Morrison.

Secretary-Treasurer—J. McIlroy.

Executive Committee.

A collection was taken up, amounting to \$25.00.

During the evening the Coleman band rendered appropriate music, and solo
